EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Raymond A. DiPerna on 8/15/07.

The application has been amended as follows:

Cancel claims 18 and 21-26.

Amend the title to:

Parallel Processing For a First and Second Image Data From One Input Image

2. The following is an examiner's statement of reasons for allowance:

Referring to claim 1, Kurahashi '332 discloses an image processing apparatus connected to at least an external controller via an external bus, comprising:

first image processing means for processing input image data and for generating first and second image data from the input image data;

image storage means for storing the first and second image data processed by said first image processing means; second image processing means for processing the first and second image data read from said image storage means;

output control means for outputting image data processed by said second image processing means via the external bus; preservation means for preserving a status of the result of processing on the first image data by said second processing means;

and pseudo master means for controlling a preservation operation by said preservation means, in correspondence with output completion of the first image data by said output control means.

Kurahashi '332 does not disclose wherein said first image processing means generates the second image data while said output control means outputs the first image data processed by said second image processing means, and said second image processing means starts processing the second image data, in correspondence with output completion of the first image data by said output control means.

Claim 11 is allowed for the same limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter K. Huntsinger whose telephone number is (571)272-7435. The examiner can normally be reached on Monday - Friday.
